PRESIDENT CLEVELAND and Secretary CARLISLE delayed until after the election the announcement that the Government would be compelled to ask bankers at once for a loan of another \$50,000,000, the second since the beginning of this calendar year. Gold bonds for that amount, bearing five per cent. interest, will be issued in a few days at a price that will net investors about three per cent. annually. The bonded debt will thus have been increased \$100,000,000 this year, the first increase since the close the war. The new loan is made neces sary by the depleted gold reserve, the sibility of renewed exports of gold to possibility of renewed exports of gold to Europe, the unexpectedly large lucrease in the public expenditures under Secre-tary Carlisla's Administration and by the decline in income under the new Wilson-Gorman Tariff Act. The expen-ditures and receipts of the Government onth left a deficit of nearly \$14,-

THE Cleveland-Carlisie Administration will, when the new bonds are issued, have increased the bonded interest-bearing debt of the Gevernment \$100,-000,000 inside of one year—the firs increase since the close of the war! No amount of country schoolhouse oratory can refute such a fact as this. Oh, yes Br'er Massi, you fellows are making a splendid record!

THE Democratic party was placed in

fuil power at Washington on the 4th of March, 1893. In less, therefore, than two years it has only served to demon strate its capacity for mischief. But the people have had sufficient time to measure It, and they have measured it. They began to indicate their disapproval in Ohlo in 1893; then came Maine, Vermont. Massachusetts, Connecticut, Rhode Island, New Jersey and New York. The November election indicates no reaction, but the reverse. In every Northern state results have been similar, and in the South luroads have been made that foreshadow the impairment of the Demo cratic solidity in that section. Upon the whoie, says The Commercial Gazette the Democratic party is again in the downward way, and there is not enough left of it npon which to bulld for the future. Those Congressmen who were in control, and maddened by their great majority, are now at the bottom of the ladder, with not strength enough left to reclimb it. The rounds, too, are broken, and a new policy, through new men iargely and through the old party tia governed successfully for thirty years is soon to be inaugurated. There is it this a cause for general rejoicing.

These gentlemen had attended a meeting of the building committee of the Clearance llouse association, and gathered in the office of the Chase nargovernment bone. The consensus of opinion was that the bankers of New York would give up large amounts of gold for the purchase of the new issue of government bonds. It is expected that investors will subscrite in gely furnish to depositors freely the gold necessary to take the bonds.

This decision is of importance, as the banks represented in this informat conference, with the Union Trust and United States and Central Trust Compared to the conference, with the Union Trust and United States and Central Trust Compared to the conference, with the Union Trust and United States and Central Trust Compared to the administration their assurance that, the new issue will be taken care of.

When the February issue was made gold from hanks, and many only secured legal tenders, which were presented at the sub-treasury to obtain the gold. The government thus failed to secure over \$35,00,000 gold for the \$50,000,000 netted by the sale of \$50.000 method by the sal
